Preamble

The present Rules for Tent Pegging Events are effective as of 1st January 2019.

Although this booklet sets out the detailed rules of the ITPF for international Tent Pegging Events, it must be read in conjunction with the Statutes, the General Regulations and the Veterinary Regulations.

It is not possible to provide rules for every conceivable eventuality in these Rules. If there is no rule to deal specifically with a particular circumstance, or if the nearest interpretation of the pertinent rule would result in an obvious injustice, it is the duty of those responsible to make a decision based on common sense and fair play, using all technical assistance available including official video recordings (an official video recording is considered to be a recording made by a TV network or a video company hired by the organizing committee) thus reflecting as closely as possible the intention of these Rules and of the General Regulations.

Chapter 1 INTERODUCTION

Article 100 GENERAL

1- These rules have been prepared by adopting a wider consultative approach and by referring to the events and rules as practiced in most of the tent pegging countries.

2- The present Tent Pegging rules have been framed in order to streamline various rules now being practiced in different parts of the World and to bring them under the Framework of the ITPF. This will enable all tent pegging countries to have a common code and compete on equal terms and rules.

3- A Tent Pegging competition is one in which the combination of horse and competitor is tested under various conditions. It is a test intended to demonstrate the horse's freedom, its energy, its skill, its speed and its obedience in Galloping on a straight line close to the Pegs, Rings, Lemons and other Dummies and Obstacles. This will also demonstrate the competitor's horsemanship.

4- If a competitor makes certain faults such as losing his Lance, Sword, Pistol or exceeding the time allowed, etc. he incurs penalties. Those penalty points will be deducted from the points he gains. The winner of the competition is the competitor who gains the highest number of points.

5- Conditions of each competition must be set out clearly in the schedule and in the programmer of the event. Organizers are not permitted to organize show competitions unless their National Federation has approved the conditions according to which these events may be run.

6- Competitions must be fair for all competitors. It is, therefore, essential that strict and detailed rules are established to regulate them. For this reason the rules, which follow must be respected, except when the ITPF has authorized certain relaxations which are justified by local conditions.

7- Winning team - The overall winners of this event will be the team scoring most points in all competitions (the 4 competitors total individual points in all Competitions added together to determine the event winning team.

8- The winning competitor will be the competitor that scores the most points in all competitions, (Best man at arms).

This will enable uniformity in competitions and fair play.

Chapter II REGULATION/RULES AND DEFINITIONS

Article 101 REGULATIONS AND RULES

1- The ITPF (International Tentpegging Federation) General Regulations (GRs) are established so that individual Competitors and teams of Competitors from different National Federations (NFs) compete against one another under fair and equal conditions.

2- The GRs together with the ITPF Veterinary Regulations (VRs) , govern the conduct of all Tent Pegging events organized by NFs.

3- These Regulations have been drawn up in the broadest possible spirit so as to allow Organizing Committees (OCs) the fullest freedom in the management of their events and in the preparation of their programmers.

4- NFs are responsible for the implementation by OCs, of all the Regulations and Rules, including all financial obligations.

5- It is the responsibility of OCs to take such measures as may be necessary to cover their financial and legal liabilities.

6- Liabilities: Neither the country, its NF nor the Organizing Committee hosting and organizing an event will be liable to any legal responsibilities for any accident or injuries to the horses, competitors or any other third party or any damage to or loss of property.

1- The dimensions of pegs are 30 cm long, 2.5 cm thick, but the width will vary from 6 cm /4 cm /2.5 cm. depending on the stage of competition. The Jury will make every effort to select pegs of uniform weight and size as much as possible from the pegs provided by the Organizing Committee. However this provision cannot form a point for objection by teams/competitors.

2- In order to prevent the wooden pegs from splitting and breaking up, they should be bound with wire 2 cm. from the top end and again at 13 cm. from the bottom point. The wooden pegs will be soaked in water before the competition to prevent them from splitting.

3- The pegs are driven into the ground at an angle of 60 degrees from horizontal, with exactly 17 cm. of the peg showing above the ground level. The face of the peg must be painted white or any clear color according to the sun or the lights .

4- The pegs should preferably be made of the wood of a date palm or any other fibrous material and should as far as possible be equal in weight and should not break up when pierced by the lance/sword.

5- Cardboard pegs can be used and should be made of 2 layers or more of corrugated Cardboard glued together with total thickness of 2.5 cm. with corrugations running vertically. Sizes will be as specified for wooden pegs. Any other synthetic peg of same dimensions can be used provided above principles hold good. Enforcement by transparent cellar taping could be applied to the cardboard pegs to prevent possible splitting and breaking.

Article 146 LAYOUT OF COURSE PLANS

The Organizing Committee hosting or starting an International competition must ensure that the course and equipment complies with the standards, requirement and rules as laid down by the ITPF. Broad Guide Lines as under:-

- 2- Course width:** Maximum of 25m – Minimum of 20m
- 3- Barrier height:** Minimum of 1.5m.
- 4- Barrier width:** Maximum of 20m.

5- Markers and red and white flags must be placed in a straight line to indicate the width of the course and the barrier at the end of the course must be same width as the course.

6- An opening at the end of the course just before the barrier will be used as the exit.

7- Start Flag indicates the Start Line Position with a white flag on left and red flag on right.

8- Marker D is 10 m from cardboard peg and 15 m. from wooden pegs indicating the distance for a “carry”. Timing is also stopped when the horses cross Stop Time Line.

9- Objection against any equipment or layout of the track must be made 30 mins before the start of that specific event. If not done before commencement of the event, all competitors must complete the run under same conditions.

Article 147 LAYOUT OF TRACK

1- It is not mandatory to lay out Tracks for horses to gallop, but is advisable especially while competing on borrowed horses. They should be so trained that they should automatically gallop in a straight line towards pegs or other objects.

2- If the Ground Jury notices faulty or dangerous equipment or incorrect layout of the course, they must report it to the Organizing Committee and rectify the same in consultation with Technical Delegate before starting a competition. If course or equipment is damaged during an event it shall be rectified before the next competitor is called upon.

Article 148 START CONDUCT

In all events, the competitors must be ready to start immediately when called upon. Judging commences at the Starting Line. A competitor starting without the Ground Jury's indication, or failing to start within 120 seconds of being called, will be eliminated from that run.

Article 149 LAYOUT OF PEGS

Pegs shall be placed in the ground 1.5 meter distance from each other for Indian File and 2 meters (6 ft. 5 in.) broad side intervals for section and half section events when using lances or sword. A single peg will be laid out on a track for each individual competitor and four single pegs in four tracks for each team in team competitions.

For Safety purposes a peg hole with dimensions Length (750mm) x Width (300mm) x Depth (300mm) must be loosened and dug and filled with sand. The peg must be placed in the centre of the peg hole.

2- Exceeded the time allowed will be penalized by ½ point per every commenced second over the prescribed time, to be deducted from the gained points of that run, no time penalty will be levied in case of no score.

3- The organizing committee and the ground jury have the authority to amend the required time for any event. This amendment should make provision for the following:

- a. Footing conditions b. Breed of horses c. Ability of horses
- d. Safety of competitors and horses
- e. Category of competition ie: Seniors, Ladies, Juniors/Children and Master.

Article 152 TIE

1- To avoid undue stress on tent pegging horses, there should be only one additional run same to the last one with maximum the peg size 2.5cm. Then the classification will be according to points. If we still have a tie, then the classification will be according to the time of the additional run, and if a tie persists, then the time of the run prior to that, will be used to determine the winner/positions.

2- In single file competitions tie should be one extra run with the Lance.

3- In Pairs competition tie should be one extra run with the Sword.

Article 153: AWARD OF POINTS – PEGS
